EDUCATION

VIT Bhopal University

Bachelor of Technology in Computer Science and Engineering; CGPA: 8.90/10.0

Sehore, MP

Sep 2022 - May 2026

TECHNICAL SKILLS

- **Programming Languages:** C++, SQL, Terraform, Python, HTML, CSS
- **AWS & Cloud:** EC2, S3, Lambda, DynamoDB, RDS, IAM and more
- **Tools & Technologies:** Docker, Kubernetes, Git, Linux

CERTIFICATIONS

- **AWS Certified Solutions Architect - Associate (AWS)**
- **AWS Certified Cloud Practitioner (AWS)**
- **HashiCorp Certified: Terraform Associate (003) (HashiCorp)**
- **GitHub Foundations (Github)**

PROJECTS

Voice-Controlled File Management with Alexa and AWS | *Python, AWS Lambda, Alexa Skills Kit, S3, Boto3*

- Engineered a Python monitoring script using the watchdog library, detecting newly added files in designated folders with 99.9% accuracy and triggering automated Alexa skill uploads, enhancing user experience.
- Developed a Python-based local monitoring script that detects newly added files in a folder and communicates with the Alexa skill to trigger uploads.
- Designed Alexa skill to manage S3 buckets via voice commands, automating the process of creating buckets and uploading files that decreased the reliance on command-line interface by 90%.
- Enhanced hands-free cloud storage operations through seamless interaction between voice input, serverless computing, and local automation.

Serverless Data Lake Architecture on AWS | *AWS S3, Glue, Athena, QuickSight, CloudFormation* | [GitHub](#)

- Built a fully serverless Data Lake pipeline using AWS official workshop, covering ingestion, transformation, and visualization.
- Automated infrastructure deployment with CloudFormation and used AWS Glue for ETL and schema management.
- Queried and visualized transformed data with Amazon Athena and QuickSight, enabling real-time insights without managing servers.

Arogyam | *React.js, Node.js, Express, PostgreSQL, Python* | [GitHub](#)

- Collaborated in a team of 6 to develop a healthcare platform; led frontend efforts including UI styling and integrating the frontend with backend APIs for seamless user interaction.
- Engineered a full-stack solution featuring an AI-powered chatbot, enabling personalized medical guidance and enhancing accessibility for users.
- Built modular features including health tracking (via Google Fit), home remedies, and therapy recommendations—powered by a robust Express.js backend and PostgreSQL database.

CO-CURRICULAR ACTIVITIES

Vice-President

Bashcraft Club

Aug 2024 – Jan 2025

Campus

- Spearheaded strategic planning and execution of high-impact technical events, including ideathons with 300+ participants to promote innovation and collaboration.

ACHIEVEMENTS

- Co-developed an OPD queuing system with a team of 6 over 4 weeks, earning a top 40 spot at Smart India Hackathon 2024.
