EDUCATION

VIT Bhopal University

Bachelor of Technology in Computer Science and Engineering; CGPA: 8.83/10.0

Sehore, MP

Sep 2022 - May 2026

TECHNICAL SKILLS

- **Programming Languages:** C++, SQL, Terraform, Python, HTML, CSS
- **AWS & Cloud:** EC2, S3, Lambda, DynamoDB, RDS, IAM and more
- **Tools & Technologies:** Docker, Git, Linux
- **Concepts:** Data Structures, Algorithms, Object-Oriented Programming, Operating System

CERTIFICATIONS

- **AWS Certified Solutions Architect - Associate (SAA-C03)** (AWS)
- **AWS Certified Cloud Practitioner (CLF-C02)** (AWS)
- **HashiCorp Certified: Terraform Associate (003)** (HashiCorp)
- **Cloud Computing** (NPTEL)

PROJECTS

Voice-Controlled File Management with Alexa and AWS | *Python, AWS Lambda, Alexa Skills Kit, S3, Boto3*

- Designed and implemented a voice-enabled file management system by integrating an Alexa skill with AWS Lambda and Amazon S3.
- Developed a Python-based local monitoring script that detects newly added files in a folder and communicates with the Alexa skill to trigger uploads.
- Enabled dynamic creation of S3 buckets and file uploads using voice commands such as "create S3 bucket" and "put `file_name` into S3 bucket".
- Enhanced hands-free cloud storage operations through seamless interaction between voice input, serverless computing, and local automation.

Serverless Data Lake Architecture on AWS | *AWS S3, Glue, Athena, QuickSight, CloudFormation* | [GitHub](#)

- Built a fully serverless Data Lake pipeline using AWS official workshop, covering ingestion, transformation, and visualization.
- Automated infrastructure deployment with CloudFormation and used AWS Glue for ETL and schema management.
- Queried and visualized transformed data with Amazon Athena and QuickSight, enabling real-time insights without managing servers.

Arogyam | *React.js, Node.js, Express, PostgreSQL, Python* | [GitHub](#)

- Engineered a full-stack healthcare platform featuring an AI-powered chatbot to provide personalized medical guidance and enhance user support.
- Seamlessly integrated Google Fit API to monitor and analyze users' daily activity, offering real-time insights that improved health awareness and engagement.
- Developed modules for home remedies and therapy recommendations, significantly enriching the platform's utility and increasing long-term user retention.

EXPERIENCE

Vice-President

Bashcraft Club

Aug 2024 – Jan 2025

Campus

- Spearheaded strategic planning and execution of high-impact technical events, including ideathons with 300+ participants to promote innovation and collaboration.

ACHIEVEMENTS

- Co-developed an OPD queuing system with a team of 6 over 4 weeks, earning a top 40 spot at Smart India Hackathon 2024.
